

## **How to use Digidelivery:** **(to Richard Dodd only)**

1). First download the 'client' software and install it: (here is a link)

**<http://www.digidesign.com/index.cfm?langid=1&navid=98&itemid=4806>**

2). Then, **Open the newly installed program** and follow the 'step'. **DO NOT UNCHECK** any option boxes.

You will be asked for :

3). **ADD FILES:** Either 'drag and drop' into the frame, or select through the browser the files you wish to send me.

4). **HOST:** = digidelivery.blackbirdstudio.net

5). **USER:** = guest

6). **PASSWORD:** guest

7). Send to: **richard@richarddodd.com**, (press 'Add')

8). You may include a written message to me before you hit **'SEND'**

**You're done, now wait until the job is sent before you shut down, quit or sign off :)**

(this will take a while, duration varies with your upload speed)
